COMPANY OVERVIEW

TGI INC. is a privately held Canadian company established in 2014, with a mission to deliver essential industrial supplies across borders. Headquartered in Vancouver, Canada, and supported by regional offices in Erbil and Baghdad, the company has built a strong presence in the Middle East through its commitment to reliability, innovation, and client satisfaction.

We specialize in the sourcing, supply, and support of industrial products and services in three core sectors:

E

Electrical Solutions

End-to-end design, supply, installation, and maintenance of power-distribution and automation systems. Our portfolio covers LV/MV transformers, switchgear, control and instrumentation cables, explosion-proof equipment, solar-power packages, cathodic-protection units, earthing and lightning networks, turbine generators in various capacities, and custom LV/MV panels.

C

Chemical Raw Materials

Import and distribution of food-, pharma-, and industrial-grade chemicals such as sorbitol, guar gum, castor and coconut oils, glucose syrup, SLES, acetic acid, MPG, soy lecithin, and glycerine. We provide full documentation, regulatory compliance support, and tailored packaging.

P

Petrochemical Products

Bulk and packaged supply of refined fuels and feedstocks, including Euro 4/5 gasoline (A80-A95), low- and high-Sulphur diesel, naphtha, jet fuel, MTBE, Xylene, fuel oil, and other petroleum derivatives. Services span specification matching, third-party testing, and cross-border logistics.

By uniting regional insight with global standards, TGI INC. delivers a comprehensive product and service portfolio that keeps power utilities, manufacturers, and energy companies operating smarter, faster, and more sustainably.

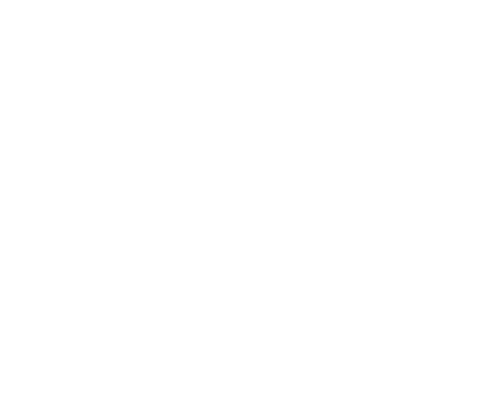

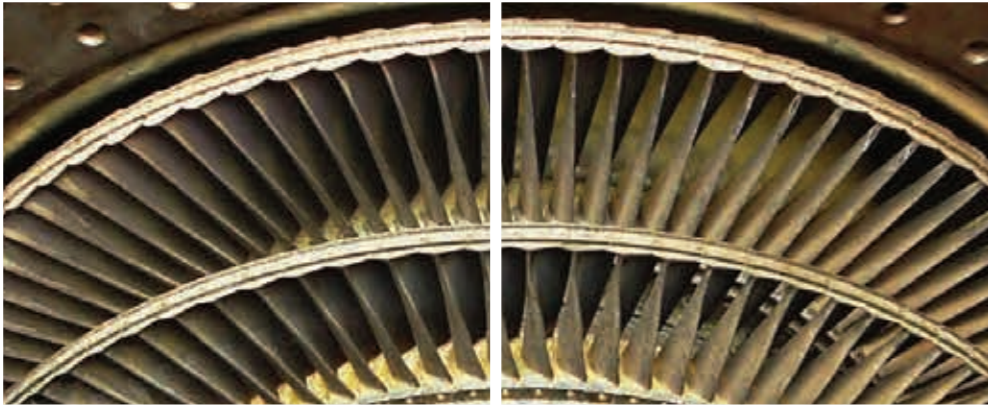

Our company supports projects across energy, infrastructure, utilities, oil & gas, manufacturing, and industrial automation sectors. From delivering single orders to managing complex, multi-year contracts, TGI INC. combines global sourcing capabilities with regional delivery efficiency.

We pride ourselves on being more than just a supplier. We are a strategic partner to our clients offering technical consultation, custom packaging, logistics optimization, and end-to-end supply chain services that ensure smooth, compliant, and timely delivery every time.

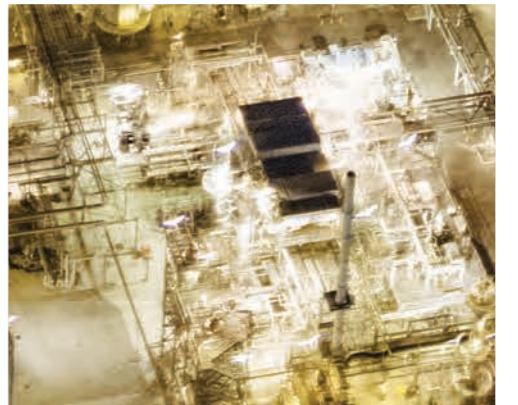

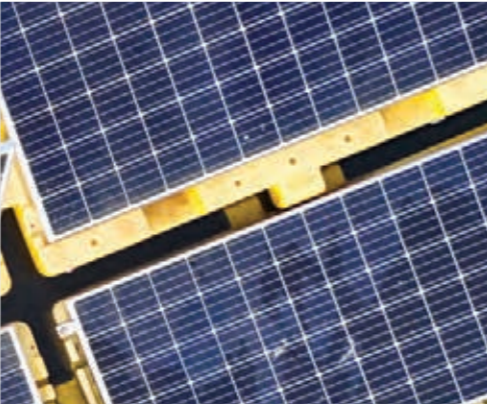

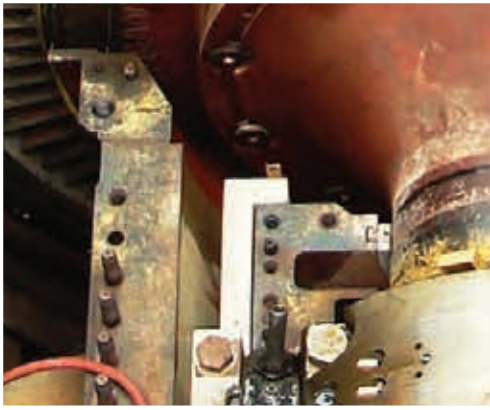

At TGI INC., we believe industrial progress begins with dependable supply. We don't just deliver materials we deliver value, performance, and peace of mind. Our services go beyond sourcing; we offer full logistical support, compliance guidance, and customized supply chain solutions. We adapt to your timelines, your technical needs, and your long-term goals.

Driven by our core values of quality, integrity, and partnership, TGI INC. has earned a reputation as one of Iraq's most reliable industrial partners a company that operates with transparency, acts with responsibility, and grows with its clients.

TGI INC.

OUR VISION

To be the leading cross-border industrial supply partner in the Middle East known for quality, agility, and trust. We envision a region where industries thrive with seamless access to world-class electrical, chemical, and petrochemical solutions, powered by a partner they can count on.

OUR MISSION

We are committed to powering industries through quality, reliability, and innovation.

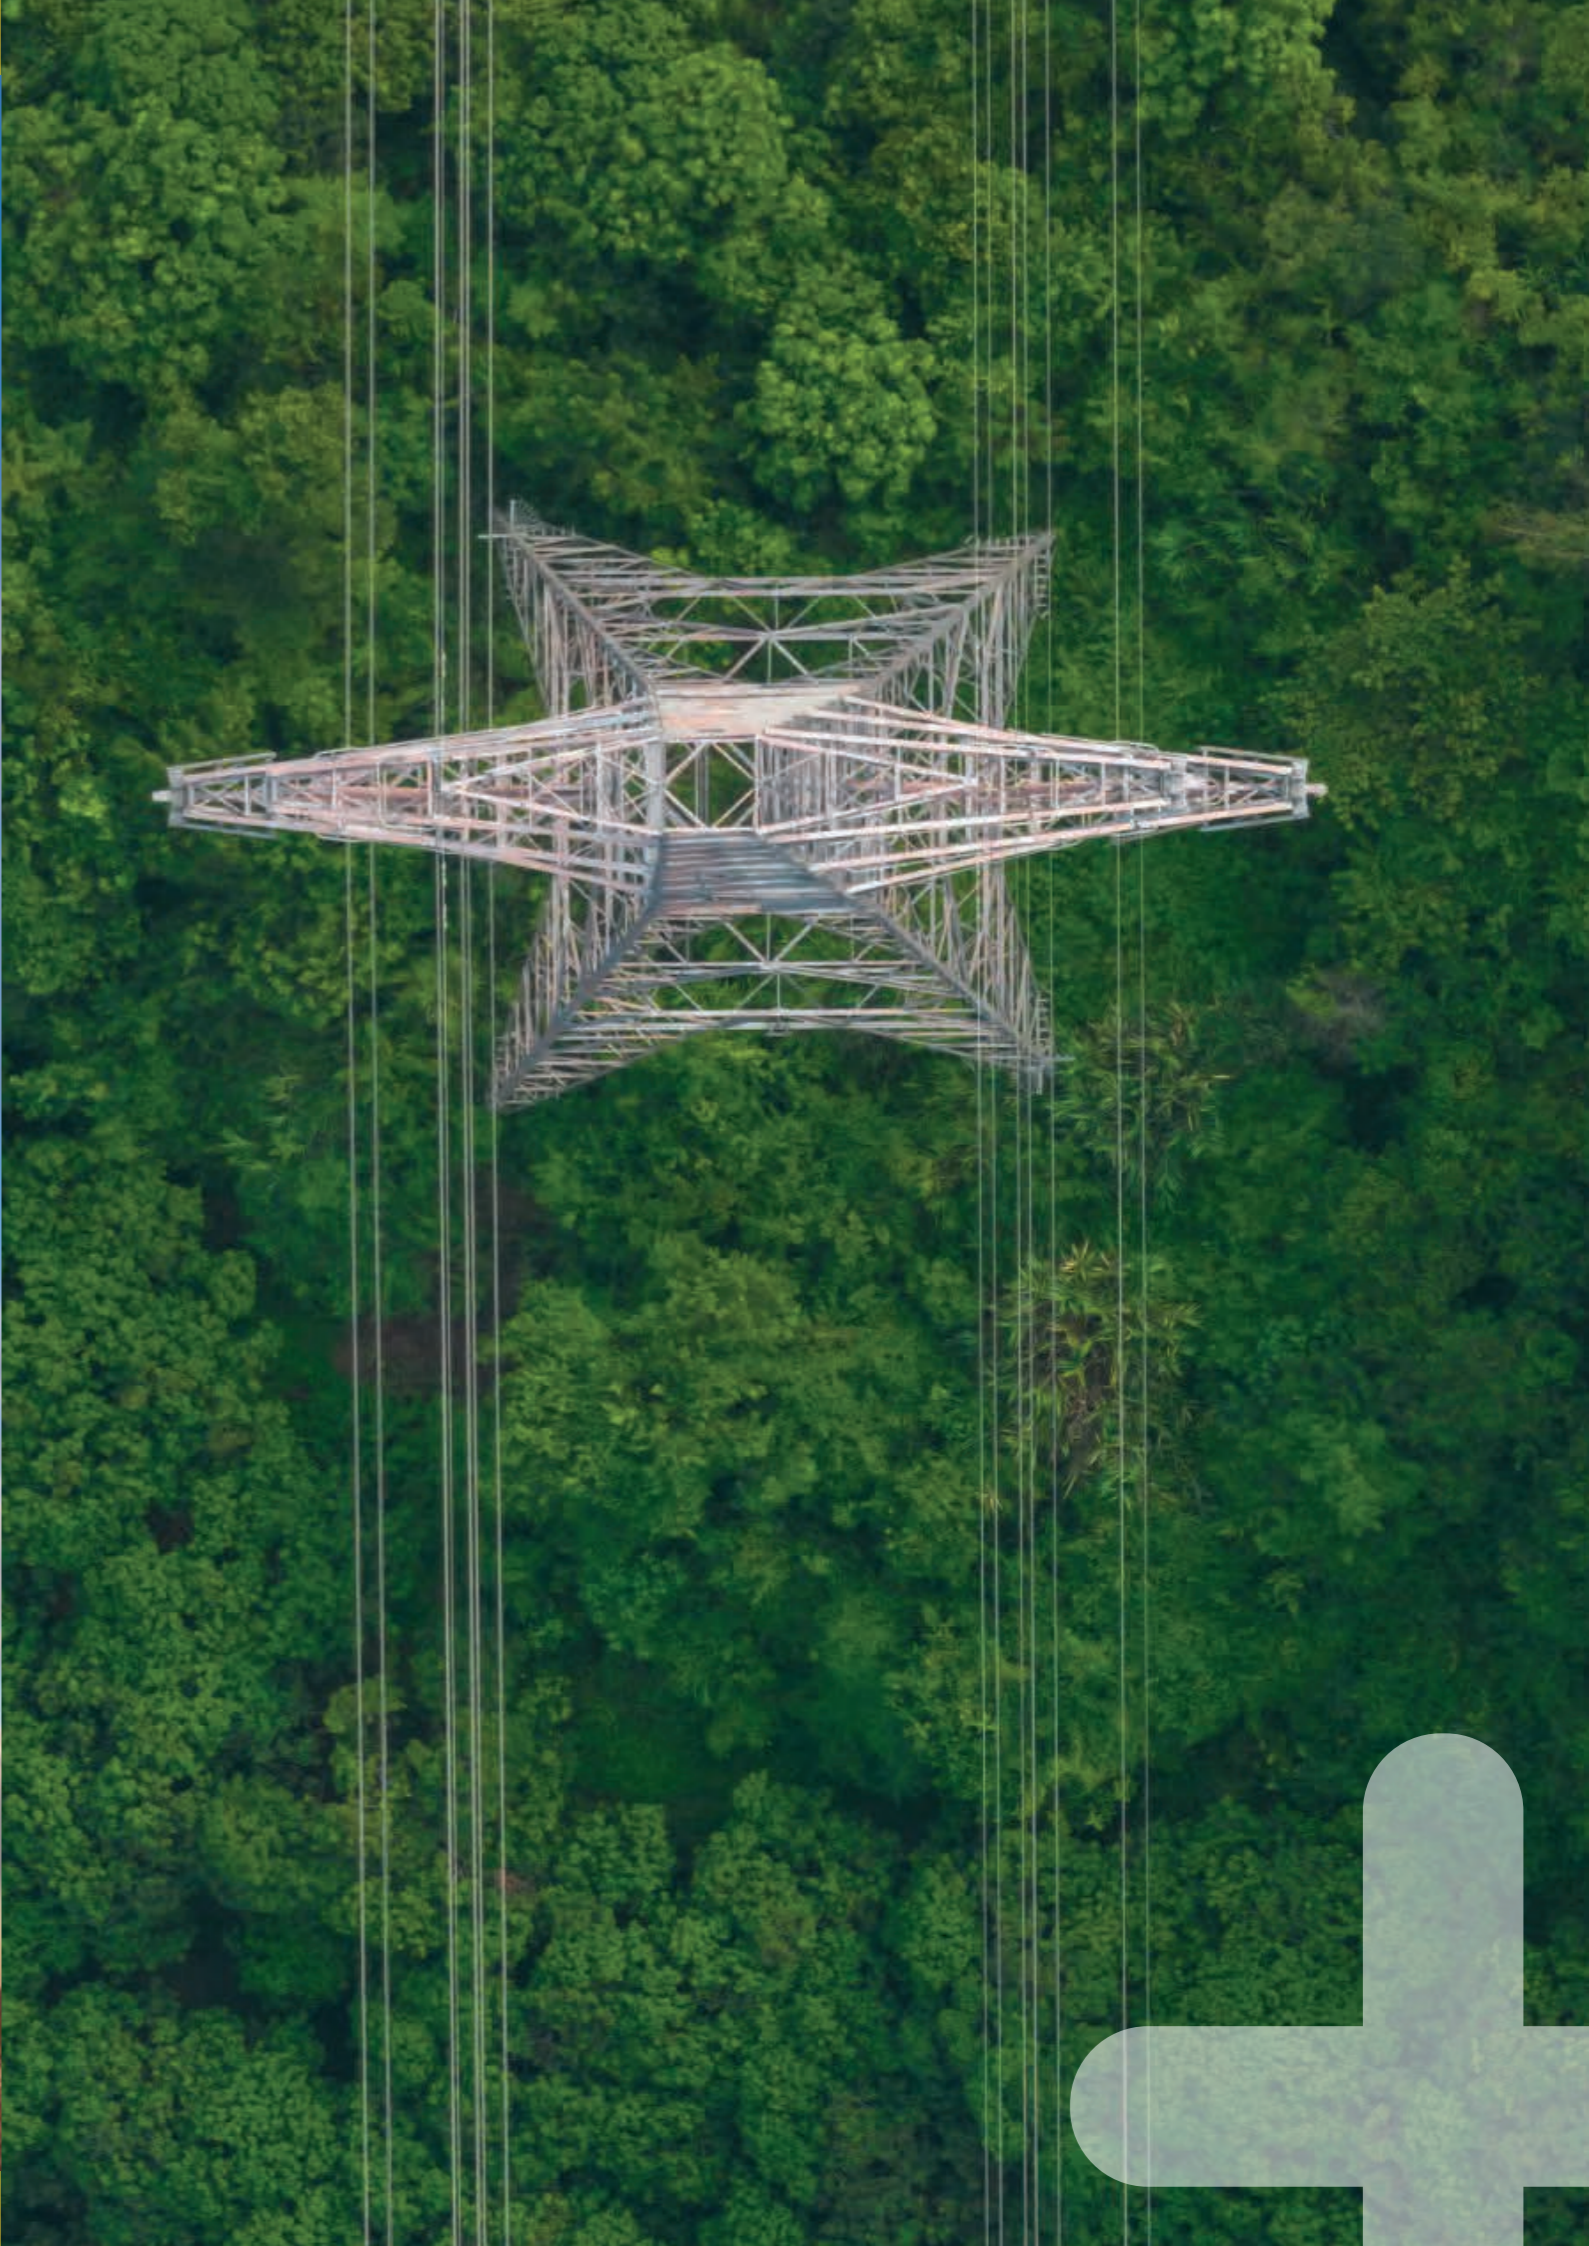

At TGI INC., our mission is to simplify and elevate the industrial supply experience across the Middle East and Canada with a strategic focus on the Iraqi market, particularly Baghdad.

We source high-performance electrical systems, premium chemical raw materials, and advanced petrochemical products exclusively from trusted manufacturers. Each product undergoes rigorous technical evaluation and compliance checks to meet international standards before reaching our clients.

Through our integrated services from technical consultation and product sourcing to logistics and regulatory support we help indus-

“ Our commitment is the foundation of your trust...”

CORE VALUES

At TGI INC., our values define how we work, how we grow, and how we build trust with every client, partner, and team member.

We engineer change through creativity, technology, and bold ideas...

INTEGRITY

I

We operate with transparency and honesty every promise we make is backed by action.

Clients count on us because we deliver consistently, on time, and with precision.

II

RELIABILITY

CUSTOMER-CENTRICITY

III

We listen, adapt, and go the extra mile to meet the unique needs of each customer.

We embrace modern technologies and smarter processes to continuously improve our service quality and efficiency.

IV

INNOVATION

SUSTAINABILITY

V

We strive for environmentally responsible sourcing, logistics, and packaging practices across our supply chains.

We value different perspectives and backgrounds, fostering a collaborative and respectful culture across all regions where we operate.

VII

DIVERSITY & INCLUSION

**With deep knowledge
and real experience,
we face challenges
head-on...**

WHY CHOOSE US

To be the leading cross-border industrial supply partner in the Middle East known for quality, agility, and trust. We envision a region where industries thrive with seamless access to world-class electrical, chemical, and petro-chemical solutions, powered by a partner they can count on.

Regional Expertise, Global Standards

Our team combines local knowledge with international best practices enabling us to offer solutions that work, both technically and commercially.

1

2

One-Stop Industrial Supply Partner

We provide full coverage from sourcing and technical guidance to packaging, delivery, and after-sales support.

Trusted by Industry Leaders

We've earned the trust of contractors, public utilities, energy companies, and manufacturers across Iraq and beyond.

3

4

Flexible, Fast, and Transparent

We respond quickly, adapt to evolving needs, and provide clear, honest communication at every stage.

Sustainable and Responsible

We don't compromise on safety, compliance, or sustainability our operations reflect our commitment to ethical and long-term impact.

5

6

Up-to-Date Technical Insights

We keep our product data and solutions current so clients always benefit from the latest innovations.

Free Expert Consultation

Clients can tap into our engineering and market expertise at no cost before making decisions.

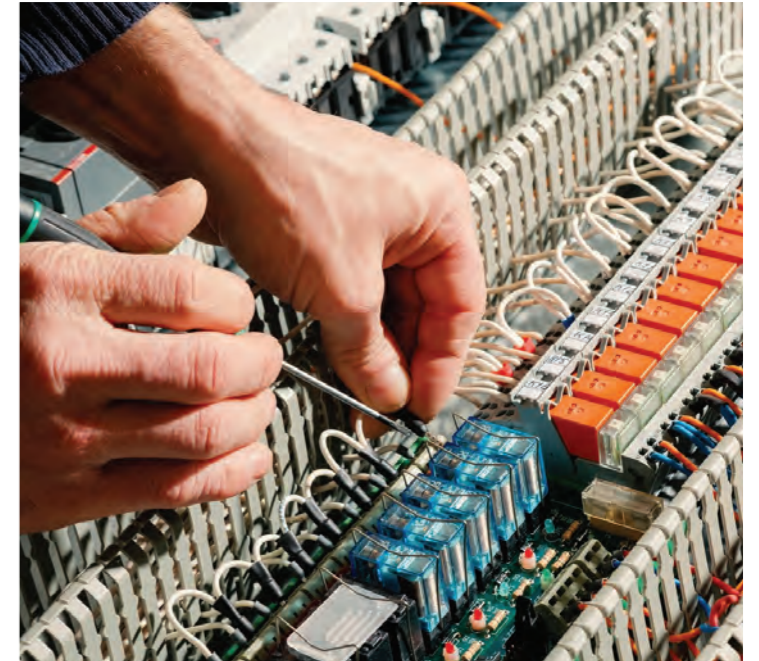

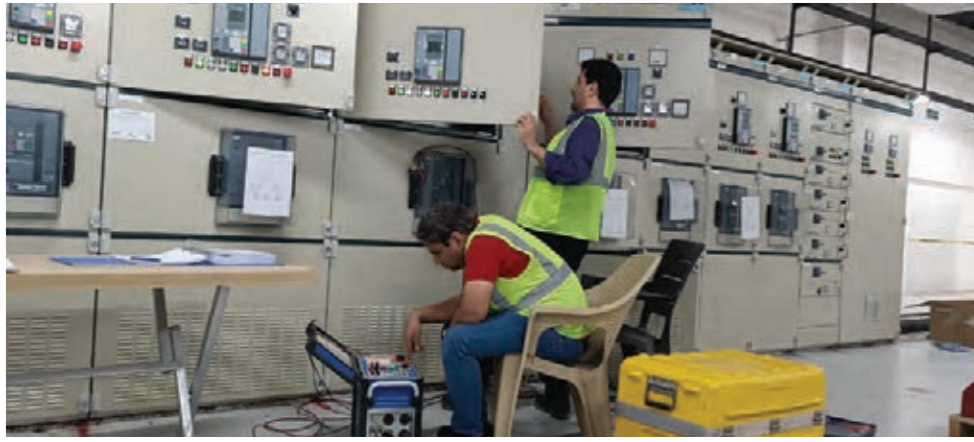

7

8

Always Accessible

Our support team is available around the clock to answer questions and resolve issues whenever they arise.

OUR TEAM

Our team is composed of dedicated professionals across Canada, Iraq, and the broader region including:

Each team member brings technical expertise, regional insight, and a passion for solving problems together, we make industrial supply smarter, faster, and more human.

In every project, our commitment is as real as our results...”

WHO USE OUR CORE PRODUCTS

At TGI INC., our strength lies in the trust we've built with industry leaders, government entities, and private sector clients across the Middle East. Over the years, we have proudly partnered with:

Our partners span across Iraq, the Gulf region, and North America, and include both long-term contractual clients and international vendors. These relationships are built on shared goals, mutual respect, and consistent performance.

CLIENTS & PARTNERS

At TGI INC., our strength lies in the trust we've built with industry leaders, government entities, and private sector clients across the Middle East. Over the years, we have proudly partnered with:

+ Every detail matters because every client matters...

ELECTRICAL SOLUTIONS

Oil, Gas & Petro-refineries
flame-proof (Ex-rated) fixtures, instrumentation cables, and automation systems for hazardous zones.

Power Utilities & Grid Operators
medium-voltage transformers, LV/MV panels, and cathodic-protection systems for substations and distribution networks.

Large-Scale Construction & EPC Contractors
solar-panel arrays, earthing/lightning-protection networks, and control panels for turnkey projects.

Industrial Plants & Factories
specialty cables and automation packages to upgrade production lines and ensure safety compliance.

PETROCHEMICAL PRODUCTS

Fuel Distributors & Retail Chains
Euro-4/Euro-5 gasoline grades (A80-A95) and diesel with 4 000-11 000 ppm Sulphur.

Chemical & Solvent Blenders
naphtha, MTBE, and xylene as feedstocks for downstream manufacturing.

Power Generation & Marine Operators
fuel oil, gasoil, and jet fuel for thermal plants and shipping fleets.

Aviation & Logistics Companies
jet fuel that meets regional flash-point and performance requirements.

INDUSTRIAL & FOOD-GRADE CHEMICALS

Food & Beverage Manufacturers
glucose syrup, sorbitol, soybean lecithin, and food-grade glycerine for sweetening, texture, and emulsification.

Pharmaceutical & Nutraceutical Firms
sorbitol and MPG for formulations requiring USP/BP compliance.

Cosmetics & Personal-Care Brands
SLES, castor oil, coconut oil, and MPG for surfactants, moisturizers, and carriers.

Paper, Textile & Mining Operations
guar gum and acetic acid for thickening, sizing, and pH

**We build the present
and shape the
future...**

FUTURE PLANS

As industries evolve, so do we. TGI INC. is actively investing in technology, talent, and infrastructure to better serve the next generation of industrial demand.

01 DIGITAL PROCUREMENT & INVENTORY SYSTEMS

We are developing smart digital platforms to streamline order tracking, inventory visibility, and client communication in real time.

02 VALUE-ADDED PACKAGING & BLENDING SERVICES

Plans are underway to launch in-house blending and packaging lines, especially for chemical and petrochemical products, enabling more customized and cost-effective offerings for the Iraqi market.

03 GREEN SUPPLY CHAIN INITIATIVES

We are committed to reducing our environmental impact introducing cleaner packaging materials, carbon-efficient logistics, and supporting clients with eco-friendly product alternatives.

EXPANSION GOALS

Building on robust regional demand and strengthened by our strategic global partnerships, our comprehensive expansion strategy encompasses the following key initiatives:

GEOGRAPHIC EXPANSION

- Opening new regional offices and warehousing hubs in Basra, Sulaymaniyah, and Amman to improve delivery times and local support.
- Establishing export channels to Afghanistan, Jordan, and the GCC for high-demand product categories.

PRODUCT PORTFOLIO GROWTH

Expanding into instrumentation, safety systems, and specialty lubricants alongside our core electrical and chemical lines. Forming exclusive distributor agreements with international manufacturers to bring advanced industrial technologies to Iraq.

LOCAL MANUFACTURING PARTNERSHIPS

Collaborating with Iraqi and regional manufacturers to localize part of our production chain, reduce import dependency, and create job opportunities.

Innovation is our strategy, not just a slogan...
